Harsh Khamkar

AI/ML & Data Science Undergraduate | Data Analyst & Business Analyst Intern

Mumbai, India | harshkhamkar26@gmail.com | LinkedIn: linkedin.com/in/harshkhamkar | GitHub: github.com/harshkhamkar

Professional Summary

B.Tech undergraduate specializing in Artificial Intelligence, Machine Learning, and Data Science with practical experience in data analytics, business analytics, frontend development, and machine learning. Skilled in Python, SQL, Power BI, dashboarding, and data visualization with strong leadership and problem-solving abilities. Passionate about analytics-driven decision-making, scalable systems, and AI-powered solutions.

Technical Skills

- Python, SQL, C++, HTML, CSS, JavaScript
- Machine Learning, Data Analysis, Business Analytics
- Power BI, Excel Automation, Dashboarding, Reporting
- Pandas, NumPy, Matplotlib, Scikit-learn
- React.js, Frontend Development
- Apache Kafka, Hadoop Ecosystem, Data Processing
- Git, GitHub, Jupyter Notebook, APIs
- Problem Solving, Team Leadership, Communication

Professional Experience

Data Analyst & Business Analyst Intern | Choice India (The Joy of Earning) | May 2026 – Present

- Analyzing business and financial datasets to generate actionable insights supporting strategic decision-making.
- Developing dashboards, automated reports, and data visualizations for performance tracking and reporting.
- Assisting in business analytics workflows and preparing data-driven reports for operational improvements.

Technology & Innovation Intern | One Globe Build Con LLP, Nagpur | April 2025 – July 2025

- Developed responsive frontend interfaces using HTML, CSS, JavaScript, and React.js.
- Worked on machine learning workflows including preprocessing, model evaluation, and optimization using Python and Scikit-learn.
- Created analytical dashboards and data visualizations using Pandas, Matplotlib, Excel, and Power BI.

Projects

Student Performance Analysis using Explainable AI (SHAP)

- Built a machine learning model to analyze and predict student academic performance.
- Applied Explainable AI techniques using SHAP to interpret predictions and identify influential features.
- Improved understanding of model transparency and decision-making through feature importance analysis.

University Café Website

- Developed responsive frontend modules with improved usability and real-time user interaction.

• Implemented scalable UI components using HTML, CSS, JavaScript, and React.js.

Bistro Café Management System

• Developed backend functionalities using Java and Python.

• Optimized database operations and improved system performance for efficient management workflows.

Certifications

• Advanced Python

• Advanced Excel

• Prompt Engineering – DataCamp

• SDG Certification – edX (Columbia University)

• Climate Change Certification – edX (University of Edinburgh)

• HCL Tech Certification

Leadership & Achievements

• President, Sports Club (2025–26), Universal AI University

• Head of Operations, SMART Project

• Event Head, Rush4Rush Intercollege Event

• National & State Level Basketball Player
